### VPN Downloads

- [64-bit Windows](#)
- [32-bit Windows](#)
- [Mac OS](#)
- [Mac OS Only - Remote Desktop for Mac](#)
- [VPN Instructions](#)

## Step2

Confirm you want to download the file and it should show up on the bottom taskbar, click on it then double click on the SSL VPN Agent Installer.

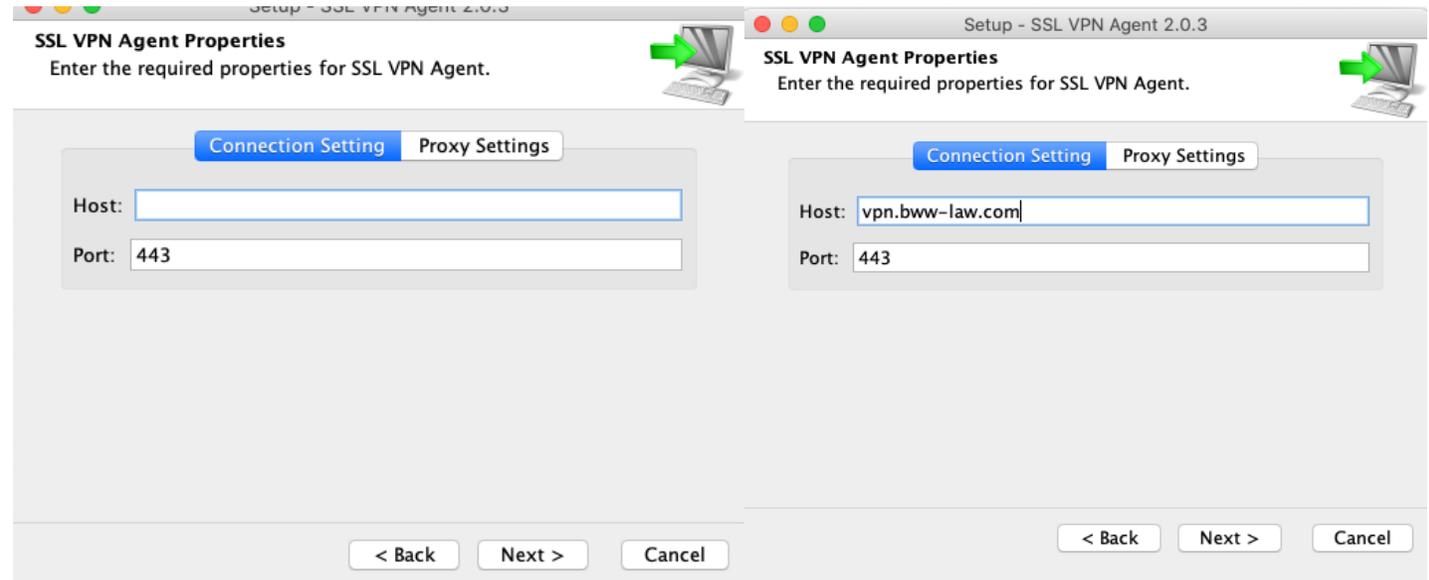

## Step3

Hit next through the wizard until you get to this page and put in the host

Host: **vpn.bww-law.com**

The port can stay the default

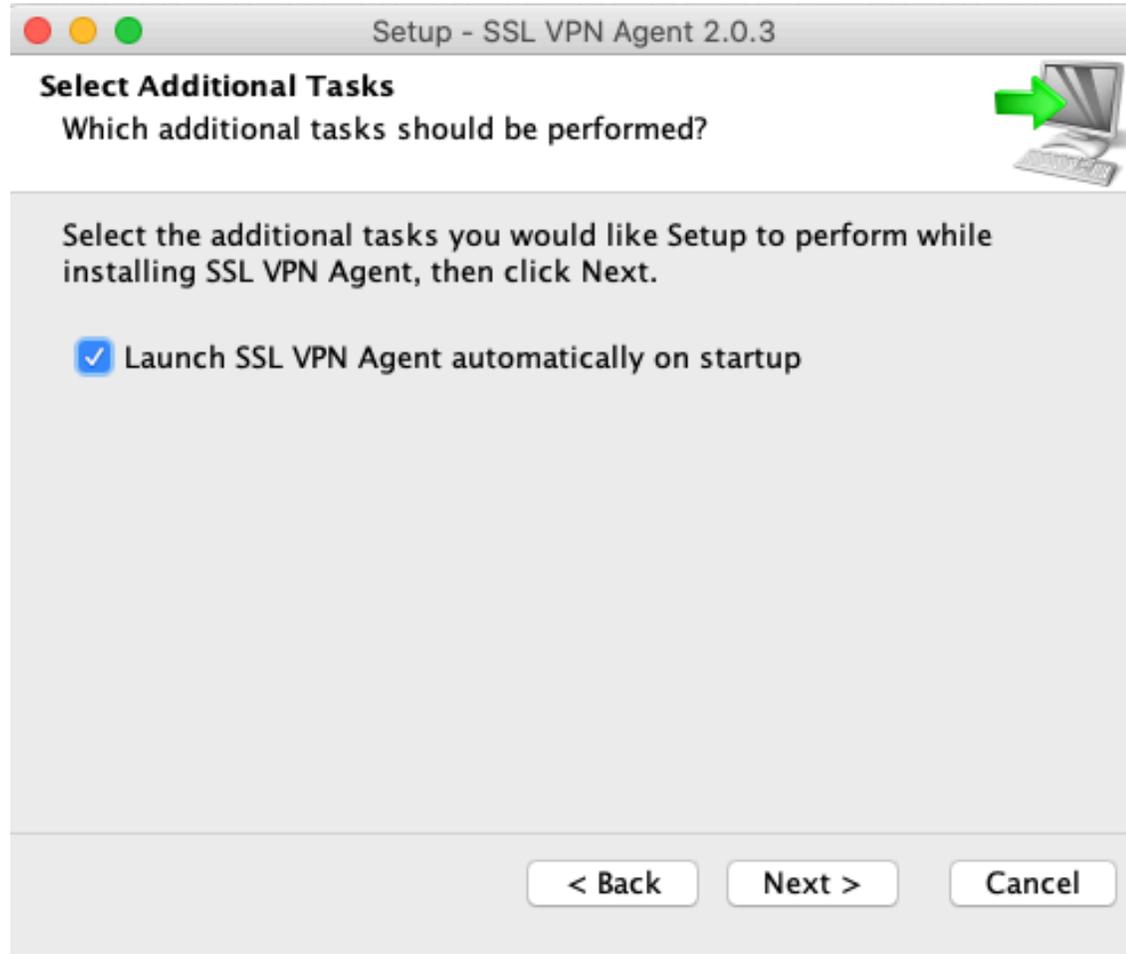

Then hit "Next"

## Step4

Check the box to launch the vpn agent automatically on startup then hit "Next".

This will make things a lot easier if/when you need to connect again.

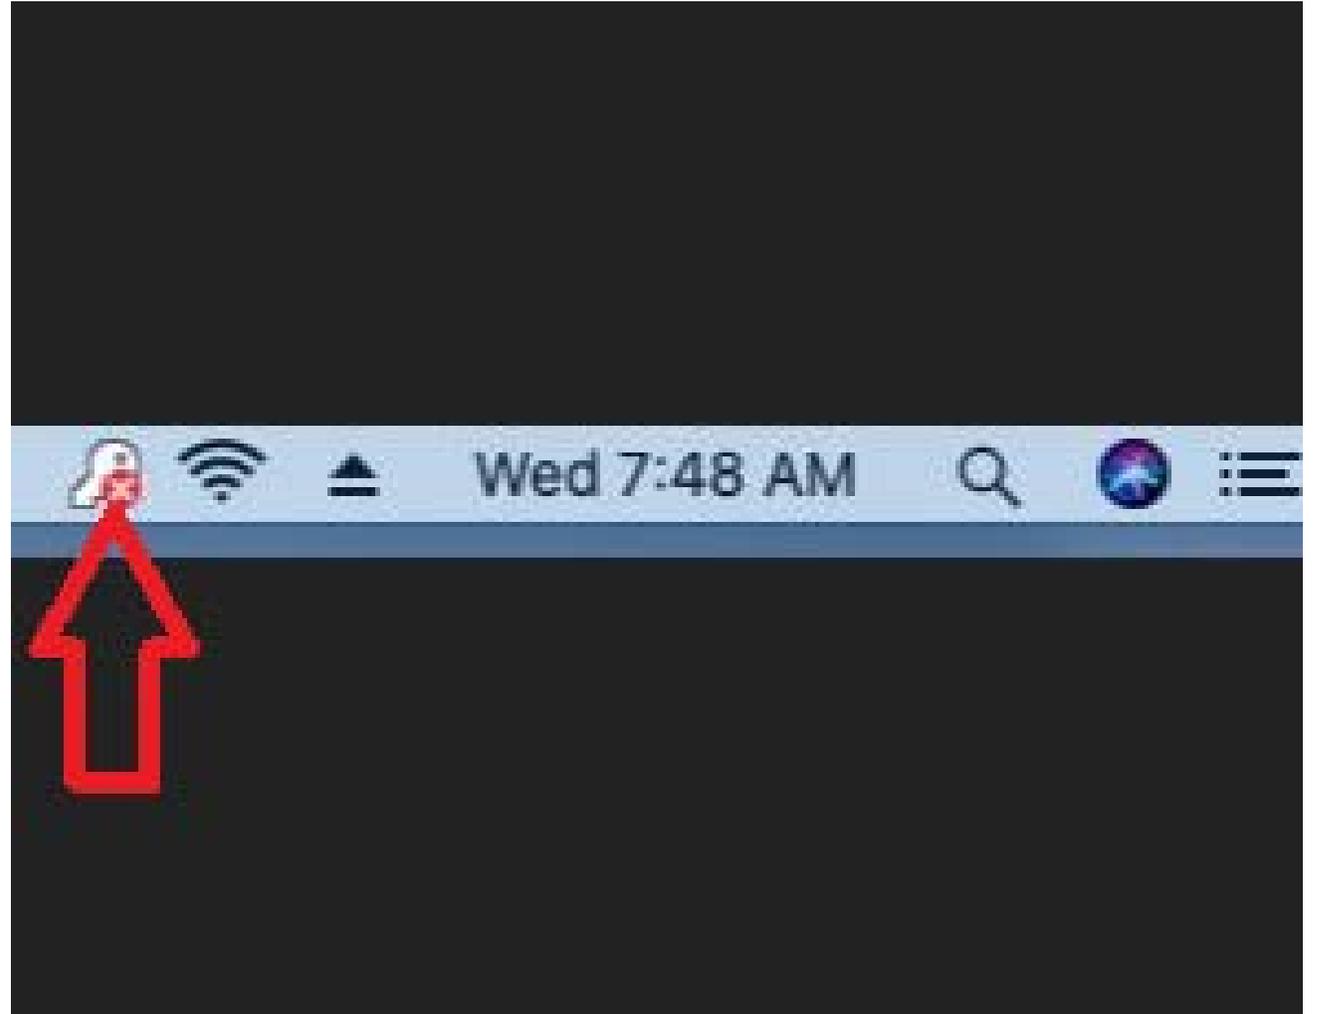

## Step5

After the installation finishes the agent won't already be running so proceed to the finder and type in "SSL" and the agent should show up.

## Step6

At the top of the screen click the white key then choose "login".

## Step 7

Now that should have launched your default web browser to the VPN site but first we need to open the App Store and download the Microsoft Remote Desktop application.

There's a link for it on the [www.bww-law.com/itsupport](http://www.bww-law.com/itsupport) site.

After that's installed we can go ahead and login to the VPN.

WARNING: Unauthorized access is strictly prohibited and may subject you to criminal prosecution. If you cannot log in, please send an email any email account to tickets@bww-law.com and we will try to resolve your issue as quickly as possible.

## Step8

After your username and password it will ask for your PIN or token ID (which ever you were assigned) then for security reasons the agent will ask you to confirm you initiated the connection so click "Yes".

## Step9

After clicking yes on the security prompt you'll be given options for a remote desktop to connect to.

Remote Desktop

Remote Desktop 5

Remote Desktop  
Accounting

Remote Desktop PIN  
VPN

# You Did it!

If all requirements were met then you should be connected and able to start working,

**Congratulations!!**
